JUNE 2018 NEWSLETTER

Welcome to WINTER - everything moves a bit slower including getting the newsletter out.

So how many of you have noticed the new masthead for our newsletter and correspondence? We are now fully incorporated and proudly can display our **Inc #**, **ABN #** and our new **PO Box**. Well done to secretary John and the other contributors for taking our shed to this new level of paper warfare.

What's been happening

Good morning shedders,
The attached photos are of Marjorie's garden seat and table that we repaired for her and the team of members that it took for several days to do this mammoth task.

This article supplied and written by Robert O'Brien

<<< "If this hammer won't shift it, then we'll just get a bigger hammer".

<<< One thing that we all agree on about the Friday morning tea is that it's a lot of fun... especially if you win the raffle.

Have you noticed the new parking signs that have been made at the shed.....was that a yes I heard you say. Well now all you have to do is obey the signs. Even the parking in the Rosella Parking Area is getting better but still some members need to practise parking in a straight line and not block the exit from the parking area.

Thanks to Robert O'Brien for the photos.

'On ya bike'

Thanks to David Ellis for the photos & article.

The bike group held a bike ride in memory of Marty Hollaardt, a well liked member of the group who died last year. After the ride they met at Cessna Café for lunch.

A couple of pictures from the ride.

Picture 1- The riders at the start of the ride. Picture 2- The riders were joined at lunch by L to R John Hollaardt (brother), Lilian Byrne (sister) and Ros Hollaardt (wife).

<<<< The bike riding group sure bond together when it comes time for a photo shot - they all had smiling faces but then it was only half way of the big ride to the Peninsula.

>>>> We now have three additional members trained as leader, Peter Tosh (looking like John Bach), David Ellis & Roger Bideleux.

Subject: SOS

A Boeing 777 wide-body jetliner was lumbering along at 800km/hour at 33000 feet when a cocky F-17 fighter jet flashed by at Mach 2.

The F17 pilot decided to show off. On his state of the art radio that is part of his state of the art 3D & million dollar headset, the F17 youngster told the 777 pilot, "Hey Captain, watch this!"

He promptly went into a barrel roll, followed by a steep, unimaginable, vertical climb. He then finished with a sonic boom as he broke the sound barrier, as the F17 screamed down at impossible G's before levelling at almost sea level.

The F-17 pilot asked the 777 pilot what he thought of that?

The 777 pilot said, "That was truly impressive, but watch this!"

The 777 chugged along for about 5 minutes at the steady 800km/hour, and then the 777 pilot came back on and said, "What did you think of that?"

Puzzled, the cocky F-17 pilot asked, "What the heck did you do?"

The 777 pilot chuckled and said, "I stood up, stretched my legs, walked to the back, used the toilet, then got a cup of coffee and a cinnamon roll and secured a date for the next 3 nights in a five star hotel paid for by the company"

LESSON OF LIFE:

When you are young and foolish, speed and flash may seem like a good thing!

When you get older and smarter, comfort and dullness is not such a bad thing!

It's called S.O.S.

Slower, Older and Smarter!

What's new in the workshop

DIY SANDING

I have been asked what do the grit sizes on sandpaper mean?

In most tasks that require using sandpaper you will come across six of the standard grits.

These are:

40 -60 Coarse	Used for rough sanding of objects such as Rough Timber. Plaster, Body Filler.
80 -120 Medium	Used to clean up parts.
150 -180 Fine	Used to finish most surfaces, before paint or stains.
220 -240 Very Fine	Used where you require good finishes.
280 -320 Extra Fine	This gives a very good finish to all surfaces, used on motor vehicles.
360-600 Super Fine	Main use is panel work on motor vehicles.

While we are talking about sandpaper here are a few types of machines that make sanding a lot easier. These machines we have in the shed for your use after authorizing in safety operations.

Random Orbital Sander. A Velcro disc attaches to the sander and spins while moving in small ellipses. Removes objects fast.

Sheet Orbital Sander. Paper held to sander by spring clamps. Paper can be cut in half. Mostly used for finishing sanding.

Belt Sander. Heavy-duty use well for levelling joinery and removing paint. Belts come in coarse and fine grits.

Detail Sanders. Small triangular shape. Fit in your hand well. Used for small hard to reach areas.

This article was supplied and written by Bill King

Just concentrate and it will happen.

It looks better from up here.

Something you all need to know

Now that we are an incorporated body, we need to be very diligent when it comes to making purchases on behalf of the shed. We have established lines of credit for some of our most common purchases, eg: Bunnings, CIG Gas, and in most other cases our payment method will be by credit card at the point of sale. So as from **July 1st**, if you want the shed to purchase anything you will need to arrange it with current card holders John Prestt and Graeme Chalmers - an official purchase order will be needed in most cases.

Birthday wishes for JUNE to:

Member #	First Name	Last Name	Day
225	Andrew	Perkins	3
65	Bernard	Warren	4
154	John	Maher	6
171	Nikolai	Faizoulline	6
205	Bob	Iverson	8
40	Douglas	Robertson	11
21	Lawrie	Carlos	12
43	Rob	Isaachsen	12
179	Alan	Rimington	12
160	William (Bill)	Argent	13
224	Neville	Viapree	14
198	Peter	Holt	15
103	Roy	Page	16
28	David	Robertson	18
162	Des	McCoy	18
59	Colin	Nash	19
143	Brian	Murphy	23
135	Robert	Muir	25
56	John	Newman	27
200	Graham	Giulieri	30

A lot of interest was being shown into 3D printing when David Taylor demonstrated his machine.

From our roving reporter - King Billy

Have returned from our small holiday at Bermagui. While there attended their Men's Shed, with approval from Doreen.

I bring greetings from the Wallaga Lake – Bermagui Men' Shed

This shed is located on Aboriginal land in the Wallaga lake area about 6k north of Bermagui NSW. Location Umbarra Cultural Centre Akolele.

This shed's membership is just under 50, most over the age of 68 years, and operate Tuesday & Thursday 10am-2pm.

A small shed that works on community projects. Members do their own projects along with many shed projects, & run BBQ's. The patchwork shop in town sells items made by the shed as fundraiser.

In side of meeting room.

The kitchen with office space.

There is a large outside BBQ area covered, & has a lunch on the last Thursday of each month.

		
<p>Inside of workshop. There are two buildings with a covered area between that is used to assemble items, plus a small shed next to the workshop where lawnmowers etc. are repaired.</p>	<p>A memorial seat has just been finished. The shed has small identification labels made which are placed on items stating made by the men's shed.</p>	<p>This item was made by the shed and is located at the Fishman's wharf outside eating area.</p>

Men's health and relevant issues etc. are important to this shed and they have guest speakers on these issues. Members get involved with community projects with signs located around the heritage trail and other points of interested.

One main event was work and fundraiser on the large bushfire around Tathra.

Here is an actual sign posted at a golf club in Scotland.

1. BACK STRAIGHT, KNEES BENT.
2. FEET, SHOULDER WIDTH APART.
3. FORM A LOOSE GRIP.
4. KEEP YOUR HEAD DOWN!
5. STAY OUT OF THE WATER.
6. TRY NOT TO HIT ANYONE.
7. IF YOU ARE TAKING TOO LONG, LET OTHERS GO AHEAD OF YOU
8. DON'T STAND DIRECTLY IN FRONT OF OTHERS.
9. QUIET PLEASE...WHILE OTHERS ARE PREPARING.
10. DON'T TAKE EXTRA STROKES. WELL DONE. NOW, FLUSH THE URINAL, GO OUTSIDE, AND TEE OFF.

This one is bad – very bad.

After a few too many visits to the "Pleasure Parlour", a chap called Bill notices green lumps on his willy.

So off he goes to the doctor.

The doctor explains, "You know how wrestlers and Rugby players get cauliflower ears?"

"Yes" says Bill, nodding seriously.

"Well" says the doctor....

"You've got Brothel Sprouts."

An elderly couple was driving across the country. The woman was driving when she got pulled over by the highway patrol.

The officer said, "Mam, did you know you were speeding?"

The woman, hard of hearing, turned to her husband and asked, "What did he say?"

The old man yelled, "He says you were speeding!"

The patrolman said, "May I see your license?"

The woman turned to her husband once again and asked, "What did he say?"

The old man yelled, "He wants to see your license!"

The woman gave the officer her license. The patrolman then said, "I see you are from Arkansas. I spent some time there once and went on a blind date with the ugliest woman I've ever seen."

The woman turned to her husband and asked, "What did he say?"

The old man yells, "He said he thinks he knows you!"

Now to finish off with the results of the MAY golf day -

Winners of the pairs comp = Rex Perceval & Phillip

Dodgson (70.5 points - *not sure who contributed the .5*)

Nearest the pin = David Robertson

Least putts = Derek Johnson

NAGA award = Ron Prestt

SPONSORS

The members of the Dingley Village Men's Shed again wish to express their appreciation to our wonderful local sponsors and generous donors.

These local businesses have generously supported us.
We ask that you support them in return.
